Ralph Moore had lots of admirers but, alas, "no sale" - at least not yet!

Nice mix

Wally Olsen and Jerry Krier sit and chat next to Jerry's Buick

Older vehicles always "up front"!

Raffle ticket sales were easy - Willy just needed more visitor traffic. Willy Vinton staffs the table, while Scott Culbertson and Paul Tekin critique the fine auto - and complain about not being allowed a test drive!

Scott told his suitcase that there is no ADBT this year. Now he has emotional baggage.

MONDEROSA RUN

June 14th

MONDEROSA RUN

We had a great run on Sunday. We had 14 cars and a total of 36 people. It was great to see everyone. The weather started out iffy; we had lots of clouds to start out, then it started to rain and we had the umbrellas out at the Parks Highway monument. Then it rained a bit on our way to the next stop at the Minto Flats outlook, but later was nice and rain free.

We headed to the rest area for our next card and realized we had lost a few cars. Dick Bellows and Donna Wojciechowski had car issues, and a few great members had stayed behind to help them out. They soon got their car running and we were off to the Monderosa! We drew our final card, and everyone pulled out their chairs and we had a beautiful sunny day tailgate lunch. Staff from the Monderosa came out and took our orders and all were fed. Robbie and Doris even stopped by to say hello on their way home from Anchorage.

Our big winners were Katie Stell with 4 of a kind, winning \$75.00, Brier McLeod-Splitstoser, with 3 of a kind winning \$45.00, and Devon Williams had 2 pair with 10 high and won \$35.00. We ran into a little bit of rain on the way home, but what a wonderful day it ended up being. Thanks to all who were able to come and enjoy the drive.

President's Headlights

- Jeff Creamer

Greetings All!

Well here we are in July already, and it feels like we really haven't been able to start our summer! We are doing our best to adapt to the new "normal", but sadly, we are missing out on activities we have become so used to participating in.

Wednesday night run-arounds have definitely seen a drop in attendance, and Saturday mornings Cars & Coffee could use a few more folks as well. Look for a schedule for Wednesdays in this newsletter as Wally Olsen and I put together a list of neighborhoods we will be cruising for the next few weeks. Let's get the cars out for some exercise and cruise!

I am pleased to announce that new member Tony Chiu has agreed to take over as Webmaster for our website. He will be responsible for content like articles, letters, photo's, etc., so look for contact details to follow.

We do have an open Executive Board position to fill, with the term expiring at the end of this year. Please contact myself or any Board member if you would like to be considered. It would be a great way to contribute to the management of our club, without a 2-year commitment! Of course, you may find you have much to contribute and would like to have a voice in the club's future!

Safe and happy travels,

Jeff Creamer

Farmers: Backbone Of America

- Bryce Crumb

Alaska issued its first Farm license plate in 1962. 1962-1975 Farm license plates have an F prefix. I have a 1962 (with 63 tab) #6 in my collection - the 6th Farm license plate Alaska issued. For 1968, I have F 99 & F 999. For 1970, I have F22 with every sticker thru 1975 scattered all over it, and I have F 98 with no stickers. In 1976, the Farm license plate format changed to FA suffix with FARM written across bottom. 1976 have pair 2828 FA.

Some of my fondest memories as a kid are spending time on my friend's dairy farms in upstate New York. One of my fondest memories of my mom is baking apple pies with apples I helped pick during fall harvest time. I am greatly saddened by state of farmers today with mega farms being paid \$\$\$ billions for not growing crops, while small farmers struggle. My deceased wife Barb came from a farm family. Her family's dairy farm was foreclosed on by 3 banks after being in the family for 139 years. I would enjoy adding to my Alaska Farm license plate collection. What do you have? When I was Your Age...

Wayne Tuck
Executive Vice President

Most of you have heard this. Remember how our parents would start a conversation with that phrase? Being one of the "Baby Boomer" generation and hearing this from our parents was frustrating. We would make fun of it (always behind their backs) with comments like "When I was your age I walked three miles to school bare footed, in the snow, uphill both ways!" As it turns out, they probably were a lot closer to the truth than we realized. The "greatest generation" grew up as children during the Great Depression, suffered great hardships and upon reaching adulthood were immediately thrust into WW II.

By now you must be asking yourself "What does this have to do with the old car hobby or AACA?". The answer is "a lot". The post-war era for the automobile industry was exciting. The new offerings and innovations the manufacturers presented year after year were now available and affordable for the average family. Many of the veterans had never dreamed of being able to own a car during their childhood. For those that couldn't afford a new car, the pre-war cars were plentiful and available at bargain prices.

Now I have come to realize the harsh reality that I have turned into my father. Compared to our children and grandchildren, we had a tough life. We had air raid drills in grammar school. We were threatened with the fear of nuclear annihilation during the cold war. Then it was being thrust into the Vietnam War. Again, what does that have to do with the old car hobby? I think it was a lot. Those great 1950's cars were affordable and plentiful for us during our teen years in the 1960s. Then came the muscle car era. Many veterans returning to civilian life bought a new muscle car to celebrate their new found freedom. Now those cars seem to be reaching their peak in the collector car hobby.

Just the other day I caught myself starting to tell my grandson "When I was your age I didn't have a car with air conditioning, power windows, automatic transmission, power steering and brakes". Suddenly I realize that I have come full circle. My children and grandchildren have faced challenges. Maybe their challenges have been different than those faced by previous generations, but that doesn't make them any less difficult. I hope that some day my grandson will pull his 2011 car out of the garage and tell his son, "When I was your age our cars ran on gasoline. Want to take a ride with me to our region AACA meeting to learn more about them? Here, I'll let you drive"

EDITOR'S LEFT (on) BLINKER

- Rick Larrick

The Fairbanks Chamber of Commerce has made signing up to participate in this year's Golden Days non-parade so complicated (see form instructions on the next page), that I will probably just go fishing instead! But - I will definitely be back in time for the picnic at the Old K-Mart lot, to visit and to maybe win the raffle car!

This has certainly been a tough year on our community and on our club activities with the pandemic and all the changes, restrictions and guidelines that federal, state, and local governments have put in place. Our board of directors has done a pretty good job of keeping up activities, looking out for our members' safety, and expanding communications. All this while considering the circumstances (and their ever changing nature), and thus kudos should go to Jeff and his team. When you see a board member, thank them.

RAFFLE CAR NEWS

As many are probably aware, the club has had it's own Facebook page for awhile now. With all that's been going on this spring and summer limiting everyone's ability to get out and about, it seems like a good time to make more and better use of this popular platform. For those that didn't know, you can find our club page at:

<https://www.facebook.com/VLNAACF>

This page gives us a unique chance to not only stay in better contact with our own members, but to also share club events and announcements with friends, family, and the community at large. It's a great way to promote the hobby, so please check it out and don't be shy about sharing the things you find there on your own timeline, or to other groups you may belong to. If you have questions or suggestions, and especially things you would like to see posted (everyone loves pictures), don't hesitate to contact Bruce McIntosh - bcmcintosh@gmail.com. Keeping things fresh is what keeps things interesting.

WILLY RALLY PLANS

Get ready for the "Willy Rally" coming soon to a city near you. Can't tell you all the details, or the meek might not show up. We don't care if your fuel tank is full, as long as your wallet is. So if you do show up, expect the unexpected. Will firm up the date (currently planned for Saturday, July 25th, after Cars'N Coffee) due to travel delays and unknown things happening today. But whatever happens, be prepared for the unknown.

COME HOWL AT THE DOG

2nd Thursday / July 9th member meeting:

Ralph Glasgow & Melinda Harris will host the July Membership Meeting at the Howling Dog. Our meeting venue is available to the club whether or not we're open to the public. We held a successful private BMW Airheads meeting Monday June 1st. We tentatively open to the public June 19th.

Potluck or private meal: we'll cook brats & have buns, mustard, kraut and set up pot luck. If you're concerned about shared food, bring a box lunch!

Camp chairs could be helpful as folks may wish to spread out in the beer garden further than our picnic tables.

PARADE SIGN-UP INSTRUCTIONS

- Wilma Vinton

VLNAACF participation in the 2020 "Reverse" Golden Days Parade

As you all have no doubt heard, the parade will be a stationary one this year, with the public driving through a designated area at the Fair Grounds to see the floats and other parade participants. VLNAACF has been encouraged to participate, however, everything from registration to the displaying of our cars will be different. If we decide to participate, we will park our cars in the Fairgrounds in such a way as to allow the public driving by to see us. We will be required to stay at the Fairgrounds for the full time that the displays are open- 11 am to 2 pm. Setup will start around 9 am.

Registration is accomplished by each car owner, via the Chambers registration site(. Registrations must be received by the Chamber of Commerce by July 10th. Members do not have to participate, however, there is a specific way you need to complete the registration form in order to avoid being charged. I have included a step by step process below to aid in the process. If you do decide to show your car, please send me an email or text so that I can bring your display placard to the setup. If you have questions you can please call me at 907-388-7766 or email me at wlvinton@gmail.com To register to go to: <https://form.jotform.com/201497579462972> follow the instructions below:
